INTEGRATED BUDGET INFORMATION SYSTEM (IBIS)
Release 2.4.0 Notes - September 5, 2013

Issues Fixed:

1. Validation issue with amounts with cents on Budget Revision Capital Transfers
3. Populating the default Cost Center DB fields during the creation of new Fund
4. Account Titles mismatch between the form and PDF
5. Capital Revisions forms showing operation form fields
5. Population of additional DB fields of Account Table

Enhancements:

1. Removing the restriction of Account creation/edit actions of certain types
2. Adding new validations for Capital Allotment form for Requirements/Receipts/Appropriation
3. New implementation of "Edit Button" handler to go with Work Flow (Technical decision)
4. Work Queue items showing Lock icon even the form is not edited
