

INTEGRATED BUDGET INFORMATION SYSTEM (IBIS) Release 2.9.9a Notes – October 23, 2014

ISSUES FIXED

- Corrected issue with assigning newly created programs in the Program Crosswalk
- Other miscellaneous small fixes applied to the Worksheet III

ENHANCEMENTS

- Added a Reorganization field to a type 11 and a type 12 budget revision on the Basic Information tab to denote the revision addresses the creation or abolishment of an organizational unit, or transfer of an organizational unit or function to another State Agency
- Increased Worksheet III priority field to 4 digits

Program Crosswalk

- Program Crosswalk Maintenance now includes an additional filter to retrieve all, active or inactive cost centers. The expiration date 06/30/2012 was used to determine a cost center's active/inactive status.
- Issue fixed with Assigning newly created programs

View History Functionality

It is now possible in IBIS to generate a pdf of a form in different statuses through the view history function. To view a past “snap shot” of the form in PDF format in IBIS, follow these steps:

1. **Highlight** (click on) a worksheet in the work queue
2. Click the **View History** button
3. Right click on the row in the history that shows “**Submitted to OSBM**” status (or any other status captured in the history that you're interested in)
4. Click **Yes** to generate the PDF
